

FAQs

What is Elemental Excelsator?

Elemental Excelsator is a nonprofit that advances solutions to climate change and deploys them in the communities that need them the most. Each year, we find 15–20 companies that best fit our mission and fund each company to improve systems that impact people's lives: energy, mobility, water, agriculture, and beyond.

We believe that our most complex problems require collective action – and that this action must start at the local level. Our goal is to not only curate a portfolio of innovative and impactful startups but also to build an ecosystem of passionate people working to change the world. Internship and workforce development is one of the most impactful places we can think of to build the pre-pipeline for local innovation and collective action.

Will this internship be with Elemental Excelsator?

No. Each internship position will be with **select companies in Elemental's portfolio**, we refer to them as your "host company". We have 117 total companies in our portfolio, [check them out](#).

What is Elemental's role in the internship program?

Elemental facilitates the process of connecting interns to our portfolio companies. Elemental will also provide 2–3 hours a week of professional development and networking opportunities.
